

AzaSol Product Guide

Foilar Spray Application

From the Botanical Plant

NEEM

Water Soluble

Do-it-Yourself: AzaSol can be easily applied as a foliar spray. Produce sprayed with AzaSol and harvested the same day!*

* When applied as directed.

Product Category: Insecticide

Active Ingredient: Azadirachtin 6%

Item #: 229, 227

Unit Size: 75 ounce, 6 ounce

Unit Makes: 6.25 gallons, 50 gallons

Product Overview:

AzaSol is a bio-insecticide from the botanical plant Neem. This non-oil based, water soluble powder is effective on a broad spectrum of insects. It can even be applied as directed to any food crop up to and including the day of harvest. AzaSol is non-phytotoxic when used as directed.

How do I apply it?

Dilute AzaSol in water and apply as a foliar spray using hand or power-operated application equipment (such as a portable pump-up or backpack sprayer). AzaSol is also labeled for soil applications and trunk injections.

When do I apply it?

Applications can be made March through November, but the best time is April – June.

Note: Two to three applications made at 7 to 10 day intervals are recommended, unless otherwise specified.

AzaSol Rate Card

Application Rate:

How much do I apply?

It is important to apply the proper dose to the plant you are treating. Gather the following information to determine the accurate amount of product needed:

1. Determine the insect to be treated and verify any application specifications on the product label.
2. AzaSol is applied as a spray-to-drip application, ensuring the foliage is thoroughly covered on both sides of leaves. Determine the quantity and average size of trees you are planning to treat and use the chart below to ensure you have enough product mixed. These are only rough guidelines but can be quite useful for planning your treatments.

Tree Size (DBH)	Gallons per Tree
1"	.5
5"	2 - 4
20"	7 - 13
30"	15 - 20
50"	25 - 30

3. Use the rate chart to determine the total dosage for the pest to be treated.

Foliar Application

Pest	AzaSol	Water
Whiteflies, leaf miners, scale, mealy bugs, thrips, aphids, psyllids, bugs, flies, sawflies, caterpillars, beetles, weevils, larvae of: peach tree borers & cranberry borers	1 tsp. 6 ounces	1 gallon 50 gallons

Tree Geek's mission is to encourage Do-it-Yourselfers who want to care for the health of their trees. We provide:

- Easy-to-use treatments
- Proven results
- Research based science
- Affordable solutions
